

Lynkk launch week

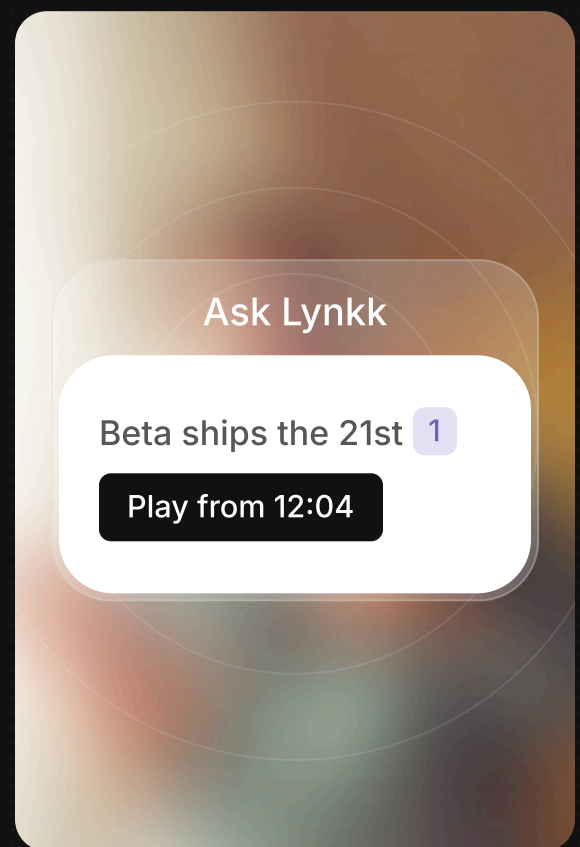

Record the call. Lynkk writes the rest.

Record
No bot joins

The note
Tasks with owners

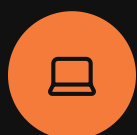

Ask
From your notes

One app from the call to the follow-up. Here is how it works.

Four ways to record

Record where you meet. Pick what joins.

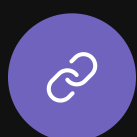

Mac app

Notifies the call in Zoom, Meet, Teams and more. No bot joins.

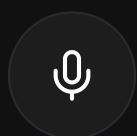

Chrome extension

A capsule above the call controls. Press Record.

Meeting bot

Paste a link or let your calendar send it.

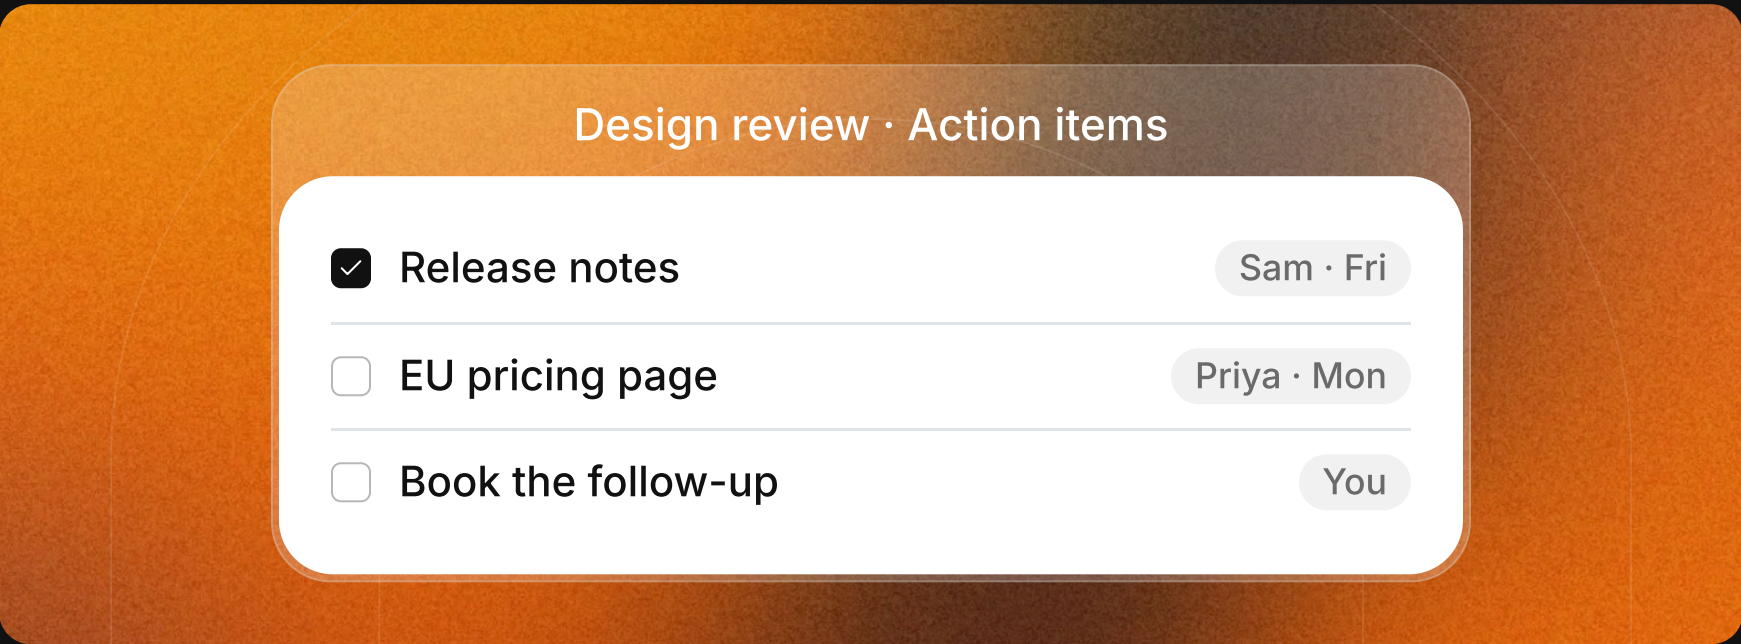

Web

Record your mic at lynkk.ai, in the room.

After every recording

Every call ends as a brief. Tasks come with owners.

17 languages

Speaker labels and auto-detect.
Four languages in beta.

Timestamps that play

Every takeaway opens the
recording at that moment.

Send to Jira

One issue for each action item.

9 Summary Shapes (Pro)

Stand-up, sales call, 1:1, board
meeting and more.

Ask Lynkk · Pro

Ask your meetings. Answers cite the moment.

Ask Lynkk

What did Acme say about the rollout date?

They asked to move it to March 3 ¹. Priya agreed on the call ².

Acme renewal · Tue

Play from 12:04

Only your notes

By person, company or project.

In Slack too

DM Lynkk, @Lynkk in a channel, or /lynkk.

A morning briefing

Who you meet and what's open.

Not training data

Lynkk never trains on your conversations.

[Start free](#)

Stop taking notes. Start finishing meetings.

Lynkk records the call, writes the brief,
and answers from your own notes.

[Try it free at lynkk.ai](#)**4 ways in**

Mac, Chrome, bot, web
