

Meetings at work

The meeting is over. Nobody remembers what was decided.

One hour later

Sam Did we say the 21st or the 28th?

Priya Who is sending the deck?

You What did Acme want again?

Four common meeting problems at work. Here is how Lynkk fixes each one.

Problem 1 · Forgotten decisions

Decisions get forgotten. Lynkk writes them down.

Meeting notes · Design review

Decided Beta ships on the 21st

Why Legal signs off on the 19th

Still open EU pricing

12:04 "Let's ship the beta on the 21st."

You get what was decided, why, and what is still open. Click any time to hear that part of the call.

Problem 2 · Nobody owns the task

Everyone heard the task.
Nobody did it.

Every task gets a name and a due date. Send them to Jira from the notes.

Problem 3 · No time to prepare

You forgot the last call. Lynkk reminds you first.

Your morning email

10:00 Acme renewal

With Dana and Leo from Acme

Last call Tuesday

Still open 2 tasks

Connect Google Calendar. On meeting days, you get an email with who you're meeting and what's still open.

Problem 4 · Ask Lynkk · Pro

The answer is in an old call. Just ask Lynkk.

It answers only from your own notes. And it shows you where it found the answer.

In short

Four problems. One fix: good notes.

Without notes		 Lynkk
Decisions	Everyone remembers them differently.	Written down, with when it was said.
Tasks	Everyone heard them. Nobody did them.	A name and a due date, sent to Jira.
Prep	You show up unprepared.	A morning email with what's open.
Answers	Lost in an old call.	Ask Lynkk and get the answer (Pro).
